Questions and Answers

Q1. Does the RDN have current mapping of the park areas in question? And does this mapping include an invasive plant species layer?

A1. Details on the mapping information we have is available here: https://www.rdn.bc.ca/spatial-data-disclaimer-and-licence. Invasive species observations can be found through the Invasives BC Portal here: https://invasivesbc.gov.bc.ca/home/landing. All other data are field observations and chance encounters that would be shared with the successful proponent.

Q2. Can you please clarify what is being asked for in Section D - bullet 5?

A2. "Statement of your firm's approach to advancing equity and sustainability in corporate operations and service provisions, including any certifications in this regard" This statement should demonstrate how your organization has "built-in" policies on promoting equity and sustainability, including any corporate training or certifications.

Q3. Does a detailed budget need to be included in response to this RFSQ?

A3. No. Section A "INTENT" explains the RFSQ and negotiation process, while Section D identifies the evaluation criteria used to select the best suited firm.
